- When you call, have your pt's demographic and insurance information handy.
- Let them know you have a pt seeking detox and ADCARE staff should walk you through what you need to do to get pt there.
- If they have no beds available, please ask them when they expect beds to open up.

- FYI-Phoenix House is the ONLY option for UNINSURED pt's.
- **If your pt meets criteria for detox and they have (NHP/UHC/Medicaid/ and Cigna, Tufts, and some BCBS).**
- Your pt HAS TO MAKE THE INITIAL CALL TO PHOENIX HOUSE (401-294-2787 or 844-404-2842). They don't always answer, so leave a message when applicable.
- If Phoenix House staff feel pt sounds appropriate they will call you and let you know what you need to do to get the pt there.

\*If your pt has Medicare or an insurance not listed above, you can call the PES cell phone and discuss a referral.(For your Information- The other 2 detox facilities are Roger Williams Medical Center and Butler Hospital-but these 2 facilities require a psychiatric evaluation because RIH PES staff have to complete the Insurance Pre-Authorization)\*
