

Lab Add-Ons (Alphabetical)

Cannot add on: Ammonia, carboxyhemoglobin, ionized calcium, lactate, VBG

Key

Procedures

Lumbar Puncture (CSF)

CSF tubes - Everything except...

Shunt Cx and GS

Lyme PCR

Need the following BLOOD tests for:

Lyme Index

Oligoclonal Bands

Arthrocentesis (Synovial Fluid)

Urine Container or Sterile Syringe - Cytology

Cell Count, Diff and crystals

Culture and GS

Glucose

Lyme PCR

Paracentesis (Ascites) and Thoracentesis (Pleural Fluid)

Urine Container or Sterile Syringe - Adenosine deaminase, Cytology

AFB Culture

Amylase

Albumin

Bilirubin

Cell Count and Diff

Cholesterol

Creatinine

Culture and GS

Fungal Culture

Glucose

LDH

Lipase

Protein

pH

Triglyceride

All tubes from procedures must be individually labeled with at least 2 patient identifiers, and ideally an official barcode sticker.
