

## B APP: 11a-11p shift

Handoffs	Care Areas	Supervising Attending	Area Details
<ul style="list-style-type: none"><li>• 11a - Take signout on any patients the A/B APP has to allow them to go to A Pod</li><li>• 11p - Group signout with both APPs, the departing 3p-11p attending and the 6p-2a attending</li></ul>	<ul style="list-style-type: none"><li>• B Pod</li></ul>	<ul style="list-style-type: none"><li>• B/TRG Attending(s)</li></ul>	<ul style="list-style-type: none"><li>• Same Vertical Criteria<ul style="list-style-type: none"><li>◦ No Telemetry</li></ul></li><li>• 20 beds, 5:1 nursing</li><li>• B-21 and B-26 are dedicated procedure rooms</li></ul>

## Other Things to Know

Patients will typically flow to B Pod through PIT. In rare situations where there are open beds on B Pod and a delay in PIT it may make sense to flow some patients directly to B Pod to be seen by you primarily. If you notice this happening please work with the triage techs to select the easiest sounding ESI 4s and 5s to pull back.

- You are the best judge of who will be an appropriate patient so help them choose.
