

## B APP: 4p-1a shift

Handoffs	Care Areas	Supervising Attending	Area Details
<ul style="list-style-type: none"><li>• 4P - Take signout from outgoing APP</li><li>• <b>11p</b> Group signout with outgoing attending and APP + 6p-2a attending.<ul style="list-style-type: none"><li>◦ Make plan with 6p-2a attending to divide patients, they will leave PIT to help as needed</li></ul></li><li>• 1A - Run your list with the B/TRG attendings and leave</li></ul>	<ul style="list-style-type: none"><li>• B Pod</li></ul>	<ul style="list-style-type: none"><li>• B/TRG Attending(s)</li><li>• The 3p-11p will sign out to the 6p-2a attending <b>not</b> the overnight</li></ul>	<ul style="list-style-type: none"><li>• Same Vertical Criteria<ul style="list-style-type: none"><li>◦ No Telemetry</li></ul></li><li>• 20 beds, 5:1 nursing</li><li>• B-21 and B-26 are dedicated procedure rooms</li></ul>

## Other Things to Know

Patients will typically flow to B Pod through PIT. In rare situations where there are open B Pod beds and a delay in PIT it may make sense to flow some patients directly to B Pod to be seen by you primarily. If you notice this happening please work with the triage techs to select the easiest sounding ESI 4s and 5s to pull back.

- You are the best judge of who will be an appropriate patient so help them choose.
