Other Things to Know

**Behavioral Patients in A Triage:** This a great senior resident opportunity to focus on some tough judgement calls about capacity you need to learn how to make. This is also much better than having to see them in D pod but we must see them and staff them fast as they will need to move downstairs ASAP for safety reasons. These patients should be shared between you, the attendings and the APPs.

- Staff fast so attending can try to see them before they move
- Please write a full note on these patients and follow them both upstairs and downstairs
- Can transition care to D Pod APP once in D Pod and after medical clearance + discussion with psych or plan for sober re-eval

**A Ambulance:** If your junior sees these patients please closely supervise (or see together). Their orders should not be flagged for execution until attending has reviewed (or given you the ok).
